ABOUT

Since 2018 I have been passionate about learning Frontend development, worked on freelancing, carefully studying client's wishes and trying to realize all needs using best practices. Engaged in daily self-development in this area.

My goal is to become a Senior Frontend developer, to work in a team, to participate in the development of complex interfaces of large interesting projects.

WORK EXPERIENCE

From 2019

Frontend developer - freelancer

From December 2021

Javascript developer - MediaToday (Moscow)

From July 2022

React developer - LTL Games (Moscow)

From August 2023

React developer - KT.Team (Tolyatti)

Since 2019, I have been professionally involved in the field of website development, as a Frontend developer on freelance. I have versatile experience, dozens of: business cards, landings, full-fledged sites taking into account all the wishes of the customer (adaptive / rubber / responsive layout), experience integrating layout with PHP and CMS Wordpress knowledge of Figma, including from the designer side.

At **MediaToday** - developed Javascript video player with built-in advertising module and using OOP. Development and support of personal account on React.

At **LTL Games** - frontend application development in React. Development of a small browser game using THREE.js and writing game logic in Typescript. Creation of multiple animations on GSAP.

At **KT.Team** - Developing and maintaining web applications using React. Working in a team using Scrum methodology: participating in sprint planning, daily standups and retrospectives. Using TanStack Query to efficiently work with APIs and manage data state. Utilizing Zustand to manage local application state. Following Feature-Sliced Design (FSD) architecture to organize project structure. Participating in cross-team projects and assisting on related projects. Conducting and participating in code reviews to ensure code quality and sharing experiences within the team.

EDUCATION

Courses and support materials: Html Academy, WebForMySelf, Vladilen Minin, Ilya Klimov, Glo Academy, Mastery, Udemy, Javascript.ru and other sources. In an online format since 2018, constantly monitoring new practices and technologies.

Higher education LGTU "Electric power engineering"
